Slate Grey Smooth

Steel Blue

White Woodgrain

White Grain

All Aluplast, Aludec and Woodec coloured foil finishes feature innovative "Cool-Colour Technology." These special patent-protected pigments considerably reduce the surface temperature of coloured foil finished profiles, enhancing performance characteristics of the surface finish.

Aludec

The attractive surface of Aludec decorative foils, distinguished by a unique fine-grained matt surface with a similar finish to powder coated aluminium. Aludec is a fabulous option that suits contemporary modern minimalist design.

Anthracite Grey

Basalt Grey

DB703 Dark Grey

Quartz Grey

Traffic White

Umbra Grau

Window Grey

Jet Black

Woodec

Woodec illustrates the appearance of real wood with a unique character combined with all the advantages of our excellent product range.

Woodec also realistically recreates a wood surface visually and to the touch, thanks to deep embossing and a matt top layer.

Sheffield Oak Alpine

Sheffield Oak Concrete

Turner Oak Malt

Turner Oak Walnut

Turner Oak Toffee

Turner Oak Amber

woodec turner oak malt

woodec turner oak toffee
